

REG CHARITY 1013511

VISION STATEMENT

The BSG Vision is that those in need of support to relieve sickness, to preserve good health and well-being within our catchment area receive it.

We work to achieve this vision by making it our mission to identify and provide a range of appropriate support measures to individuals and to groups.

We do this by:

Working in partnership with the Blackdown Practice, Statutory Authorities and other organisations, agencies and experts.

Providing adequate training for our paid staff, volunteers and trustees.

Promoting awareness of what we do in order to make clients and potential clients aware of what we offer, maintain an adequate pool of volunteers, access all possible sources of funds and build up the number of Friends.

Aiming to be self-supporting by building up sufficient reserve funds.

Approved 30th August 2017
